A common challenge for our customers is the sourcing of lighting products in the aerospace industry due to diverse types, specifications and manufacturers. Many extra hours and resources can be wasted researching and coordinating the paperwork, background information, stocking, etc. Avio-Diepen helps many MRO's and airlines coordinate and manage their complete list of

aircraft lighting product needs with a complete comprehensive portfolio that ranges from halogen lighting products to the latest in LED lighting technology and applications for the entire aircraft nose to tail. Our lighting product group consists of quality manufacturers such as Oshino, Honeywell, Amglo, Goodrich Lighting (UTC Aerospace Systems), and CML (Chicago Miniature Lamps) and many more.

- One stop for all your aircraft lighting needs
- Stocking locations worldwide and close to you
- LED cost savings (during lifetime)
- AOG support

Avio-Diepen, your total solution for aircraft lighting
